The Nebraska Department of Roads will hold a public information meeting about reconstructing the Charleston Link from Interstate 80 to U.S. Highway 34 in York County.

Upon completion of the 4-mile-long project, Nebraska Link 93E will be removed from the state highway system and relinquished to York County.

The proposed project, identified as S-L93E(1009) and known as **Charleston Link**, will include grading, replacing drainage structures, and replacing the existing gravel road surface with asphalt.

During construction, through traffic will be detoured along I-80, U.S. Highway 81, and U.S. 34. Local access within the project limits will be maintained during construction.

The purchase of additional land as right-of-way in some areas will be required to construct the project.

Construction will impact wetlands areas and mitigation may be required. Replacement wetlands may be established near the project or at a regional mitigation bank site.

Repair and resurfacing of the L93E bridge over I-80 will be completed concurrently with the Charleston

Link project. New guardrail will be installed on the bridge approaches as part of the project, which is identified as STR-80-7(1031) and known as **Charleston Link Interchange**.

Personnel from the department will be available at the public meeting to visit one-on-one about the proposed projects. Displays will be available for public review. NDOR staff will receive comments and questions. No formal presentation is planned.

Where possible, the Department of Roads will provide an accessible meeting facility for disabled people. Appropriate provisions for people who are hearing and visually challenged will be made if the department is notified by May 13, 2008. Notification should be submitted to: Kevin Dugan, Department of Roads, P.O. Box 94759, Lincoln, Nebraska 68509-4759, voice telephone (402) 479-4871. TDD telephone is (402) 479-3834.
